

ALL TO COME IN.

A Plan to Admit All Territories at Once.

History of Utah's Efforts for Statehood.

POLITICAL ROMANCE.

Oklahoma's Prospect Isn't as Good as Formerly.

WASHINGTON, D. C., Feb. 12.—(Special.)—Utah will unquestionably become a state during the coming session, and her senators and representatives will take their seats next winter," says George Rawlins, and so also say the sub-committee of the senate committee on territories which now has the matter in charge. All opposition has vanished. All senators who were formerly noted as opponents of each successive move for statehood are now advocates of it. Formerly, when the matter was before the house committee one might find in Washington from five to twenty-five nervous apprehensive lobbyists working against the state of Utah. Now there is not one. The bill for Utah's admission passed the house by a practically unanimous vote, the dissenters not being numerous enough to call for the yeas and nays, and the vote here on division are not recorded. Utah now has more people than either Connecticut, Delaware, Georgia, New Hampshire, New Jersey or Rhode Island had at the time of the formation of the Union, nearly as many as South Carolina had, and more than Delaware or any of the newest states has. The bill, it should be remembered, is only an enabling act, but the convention can be elected, the constitution drawn, submitted and adopted, the new state government set in motion and the senators and members elected in time to take its seats next December.

Arizona's Prospects.

Arizona, which for a time seemed to be going along as originally anticipated, is losing ground, and her delegates, Hon. M. A. Smith, always just at present nothing like the pathos or philosophy of the famous Mayans Aviatrix, for whom he was named, in the house there were 62 votes against Arizona's admission.

In the senate the opposition is much stronger in proportion, and some of those who voted for it in the house confess that they did so with some misgivings, which have since been increased. Among them is John L. Williams of Washington, who says:

"The movement to admit all the territories at once was very strong at the opening of business, and as the western fathers went into it rather actively. There was a feeling of pride in both parties in the idea that this congress was to finally put an end to the territorial system. But while I voted for Arizona, I now fear that established would be too great a burden for that compact commonwealth. It is an enormous area, with comparatively few people. I am satisfied that they still lack many of having 90,000 and that the population will not increase rapidly in the near future. Of taxables they only claim \$400,000, and that is less than the county I live in has. Spokane is a great and full city, and so that county is at present richer than Arizona, and after it I can see little in possibilities for the immediate future. I greatly fear if Arizona should get a state government too soon people will bitterly regret their action, and by the way, this territorial government is not a bad thing. The fathers did a pretty good job when they organized it for communities yet in their childhood. But a new commonwealth is greater vice to old standards a rather expensive toy. As to New Mexico I am not much more sanguine about that. Delegate Joseph was sick when it should have gone through the house, and the doubts of the immediate success were increased."

Arizona's Opposing Prospects.

The experience of Oklahoma to date is somewhat peculiar and unusual. At first it seems to walk right into the Union without hesitation, the doors being opened freely and a cordial invitation extended. Then it occurs to the committee that it would be a curious anomaly to have a state partially surrounded and cut off by a territory, and thus not only a nominal territory, but really a collection of loose Indian reservations under a federal protectorate. Therefore the Oklahomans were persuaded back to the incorporation of the five civilized Indian tribes and their territories with the new state, and the "dismantlers" of the east were at first daunted with the proposition.

Made Turkey Back Down.

United States Minister Threatened and American War Relieved from Turkey.

CONSTANTINOPLE, Feb. 12.—United States Minister Alex. W. Terrell after taking a vigorous stand in the matter and threatening to ask the United States government to send one more war ship to Iskanderum, northern Syria, has succeeded in obtaining the release of one of our Armenian, naturalized Americans who have been imprisoned there for some time.

Minister Terrell was only informed of the arrest of the two naturalized Americans after they were in prison for about two months, and he immediately demanded their liberation. The porte had ordered that they were Turkish subjects and announced its determination to maintain its right to keep them in prison holding them for political treason.

The United States minister reported that if they were not released within a given time, he would ask the United States government to send two war ships to Iskanderum with instructions to compel the authorities to release them.

The Mackay Scandal.

Princess Colonna says the Prince wanted to Steal Her Child.

New York, February 12.—Mr. W. J. Press, representative of the Boston and New York press, was seen in an unclad dress representing his country and said that he was authorized to make public the following statement which was written and signed by the Princess Colonna:

"I authorize you to state that my sudden decision to leave France and come to America was due solely to a plot which I discovered that Prince de Colonna, my husband, had formed to steal one of my children from me as a hostage. Individuals having been employed by him to that effect, as well as to check my movements.

Princess Evarts De Galvalo Colonna.

Mr. Mackay said he had nothing further to say and that the princess had no plans for the future.

D. Holmes, druggist, 101 Kansas ave.

sition as could be made by a statesman or by anybody who had read the constitution of the United States. Delegate Rawlins endeavored to meet the clause, namely to please the folks, but pointed out the obvious fact that it wouldn't amount to anything, as the legislators would do as it pleased about passing laws in pursuance thereof. So the master may be said to have been laughed out of court.

FIGHTING FOR PRUNES.

California and Florida Senators Say When Bill Hurts Fruit Industry.

WASHINGTON, Feb. 12.—Senator White, of California, has been interesting himself in securing protection to fruits of his state, as the people of California say they will be very much hurt if the fruit schedules of the Wilson bill are allowed to stand as they now are. He is particularly anxious to secure protection for oranges, prunes and raisins.

In this effort, the California senator is receiving the assistance of the Florida senators, who are very anxious to have the duty on oranges increased. Senator White says that the fruits of California will be compelled to enter into competition with those of the Mediterranean and of Mexico, and the result would be that the foreign fruits would make it impossible to raise fruits in California. The Florida men think the competition they would have would be with the West Indies, and would be very damaging to the orange industries of the state.

Senator White is also in sympathy with Senator Durbin of Idaho, whose bill was passed by the house by a practically unanimous vote, the dissenters not being numerous enough to call for the yeas and nays, and the vote here on division are not recorded. Idaho now has more people than either Connecticut, Delaware, Georgia, New Hampshire, New Jersey or Rhode Island had at the time of the formation of the Union, nearly as many as South Carolina had, and more than Delaware or any of the newest states has. The bill, it should be remembered, is only an enabling act, but the convention can be elected, the constitution drawn, submitted and adopted, the new state government set in motion and the senators and members elected in time to take its seats next December.
